# Handling and shipping information

## **FLUORESCENT LAMP RECYCLING KIT**

### **Shipping and Handling:**

A FedEx return label is enclosed with these instructions. Simply remove the back of the label and position the label on top of the carton directly under the words "WHOLE FLUORESCENT LAMPS ONLY" in the area marked "return label here".

### **Environmental Considerations:**

The USEPA Universal Waste Rule requires that the carton **must be sealed** at all the seams to prevent leakage from the container.

### **Certificates:**

Bethlehem Recycling will provide a Certificate of Recycling upon request and verification of receipt of your Fluorescent Lamp Recycling Kit. Simply record the box number printed under the barcode located on the carton top and contact Customer Service at 610.838.7034.

### **Items NOT Allowed in the carton:**

The Fluorescent Lamp Recycling Kit was designed for the transportation of **WHOLE** fluorescent lamps **ONLY**, in accordance with USEPA and USDOT regulations. Broken lamps must be placed **separately** into a steel pail or drum for shipment to Bethlehem Lamp Recycling. There is an added charge for this service. Contact Customer Service for additional information.

### **Call for Customer Service or Pricing for Mercury-Containing Devices:**

If you require additional information for returning the Fluorescent Lamp Recycling Kit or you have other mercury-containing products, call our Customer Service Department or Technical Sales at 610.838.7034, or fax to 610.838.6333 to make appropriate shipping arrangements. On-line e-mail to [bacohg@aol.com](mailto:bacohg@aol.com).

### **Prepayment of Kits:**

Each Fluorescent Lamp Recycling Kit must be prepaid via Visa, MasterCard, check or money order. An order for three or more cartons can be invoiced by Bethlehem Lamp Recycling to credit-worthy parties.
